the program takes a holistic approach to research and supports activities that integrate biodiversity conservation, primary health care, sustainable livelihoods, and gender equity

you're not going to, say, develop a resistance to antibiotics because your tissues aren't the main targets so there's no real mechanism for resistance to develop in that scenario

you're not going to, say, develop a resistance to antibiotics because your tissues aren't the main targets so there's no real mechanism for resistance to develop in that scenario

prostatic fluid has been found to lead to a decrease in sperm motility if the spermatozoa are allowed to incubate with the prostatic fluid for any length of time prior to insemination

black ants are still running all over my kitchen walls and counters and other rooms of my house.
